Construction News Bacton Basics

On Bacton Low Rise, a 294 flatted scheme constructed by Rydon Construction Ltd, we are using Cross Laminated Timber for the construction of 44 residential flats for LB of Camden. Phase 1 completion is set for March 2015.

Moving into Manor Close

Residents have moved to their new homes on Manor Close, Hertford. The four chalet bungalows are affordable rent and form part of part of a collection of sites with Bugler Developments for Riversmead Housing Association.

Planning News

Proceeding with Planning

This month we have received instructions to proceed with designing for pre-planning proposals in Waltham Forest, Havering, Southwark, Croydon and Lewisham. We are also carrying out public consultations on 50 homes in East Herts and 48 dwellings in Southwark.

In other news..

Movember Manliness

In the spirit of Movember, the guys at ACA have signed up with 'Just Giving' to help raise awareness of mens health issues. They are going unshaven for the whole month! Please help sponsor our rugged volunteers at: justgiving.com/aca-movember

Another Important Victory!

This month saw the ACA "invincibles" vs PWC rematch. We were once again victorious, winning 16-15!

Off to a Concrete Start!

The mixed use Quebec Quarter development, comprising of 368 flats and commercial uses for L&Q, has emerged from the ground.

Constructed by Quadrant Construction, the concrete structure is 80% complete for the first phase of the development and piling works have started on phase two. We are now progressing with the external envelope detailed design.

We recently observed ALUK Innovative Building Systems Ltd testing our bespoke windows at their factory Test Centre in South Wales.

The first residential flats are scheduled to be released in 2015 with the overall site completion set for 2017.

Amongst it's Piers

After a recent site visit to Pier Street, Block Three, Triangle Court, has now been completed. The development for Gateway Housing Association provides 27 flats as part of a 167 dwelling scheme, constructed by Allen Build South East.

Southwark Parked

Overlooking Southwark Park, Frankland Close was completed by HG Construction for Southwark Park Club and Institute Society. The scheme comprises of 17 residential flats / duplexes and a large community club overlooking the park.
