
dog kennel hill school southwark

type	School building and 15 key worker flats
client	London Borough of Southwark Education Authority/ Hexagon Housing Association/ Galliford Try Partnership
contract	Design and Build with consultant switch
cost	£3m
status	Completed 2006

A mixed use scheme providing new school accommodation at ground floor level with fifteen two-bed, shared ownership residential units above which have their own separate private access off Dog Kennel Hill.

The school accommodation consists of a new double height dining hall, kitchen, three small classrooms, an art classroom and a large entrance area to be used for informal teaching and group gatherings. A new set of outdoor toilets for use by the children during break times has also been provided.

The lower playground area of the existing school has been levelled and resurfaced to provide a floodlit football and netball pitch. Adjoining this and accessed from the dining hall is an outdoor terrace where children can dine and play in good weather.
